

Canada Meetings & Conventions Testimonials

[Physicians' Education Resource](#)

For the past 14 years we have had the opportunity to utilize the excellent destinations and accommodations to be found in Canada. As a medical education company, we seek to secure venues that offer an appropriate educational environment as well as excellent service. Our experiences in Quebec City, Banff, Vancouver and Whistler have always resulted in first-rate educational settings not to mention the majestic beauty these locations offer to further stimulate the mind. Canada and its amenities will continue to be a part of our planning now and in the future.

Gregory Pynes
Senior Director, Meetings

Dallas, TX
[red e2 Ltd](#)

We are strong supporters of Canada, from whale watching in Newfoundland to dining on the shores of the Pacific in Vancouver, the country has so much to offer for both the incentive and meeting markets. We are taking a number of clients to Vancouver and Whistler in early December on a study tour and totally expect once they have experienced the destinations for them to confirm business in the country. For me, Canada rocks!

[On-Site Productions, Inc](#)

Banff ? a terrific destination. Our incentive group was most impressed, with the variety of activities offered, the hospitality of people of Banff Springs, the Fairmont did a fantastic job ? always on top of the requests ? most attentive to our needs. I would not hesitate to visit again with an incentive group, corporate group, or a small association. By the way the views are spectacular, everything was just perfect.

Calgary

[Catherine Paull Meeting Management](#)

Calgary was host recently to an annual association meeting we manage of over 2000 international delegates. Our delegates are big networkers who love to socialize and, other than a Welcome reception held the first day, there are no evening functions planned as part of the meeting agenda. It is very important to our delegates that there are many and varied restaurants and bars that are within easy walking distance of our host hotels for their evening socializing. Holding the meeting in the downtown core certainly allowed them to do this with so much choice right outside the doors of our hotels. Calgary was perfect!

Banff & Jasper National Parks

[Canadian Automobile Association](#)

Canadian Automobile Association's 95th Annual Meeting held in Jasper was an outstanding success. Each year, the conference program gets better and expectations from the delegates continue to soar like the beautiful mountains that surround Jasper. The weather cooperated and was picture perfect but our success was largely due to the Fairmont Jasper Park Lodge team exceeding all expectations and going over and beyond in ensuring each of our guests were pampered and well taken care of. The most common feedback we received from our delegates was: We can't wait to come back and stay longer next time!

Vancouver

[Risk and Insurance Management Society, Inc](#)

The Vancouver team went above and beyond the call of duty to ensure that the Risk and Insurance Management Society Suite Life FAM trip in Vancouver exceeded the RIMS staff and our 55 participating insurance clients' expectations. No detail was overlooked. Everyone had a great time and kept on saying throughout that this is "the best Suite Life they had ever attended". The hotels and the venues showcased generated significant interest for the

insurance companies who will hold their own client events during the RIMS Annual in Vancouver next year. THANK YOU SO VERY MUCH to the Vancouver team for making our RIMS 2011 Suite Life event memorable and one that will remain in everyone's memories. I look forward to our continued partnership as we navigate towards RIMS 2011. Kindest regards and thank you Vancouver for all you do!

Vancouver

[Pediatric Academic Societies 2010 Annual Meeting](#)

Pediatric Academic Societies 2010 in Vancouver was the 3rd largest meeting in the history of the organizations. All four sponsoring organizations; American Pediatric Society, Society for Pediatric Research, Academic Pediatric Organization and the American Academy of Pediatrics along with over 15 alliance organizations were extremely happy of the success of the PAS. From preplanning to post completion, the City (Tourism Vancouver), Vancouver Convention Centre and host hotels did an absolutely wonderful job in welcoming and executing the PAS meeting and delegation. Without their true professionalism and attention to details, we couldn't have had a better conference.

Kathy Cannon, APS/SPR

Associate Executive Director

Pediatric Academic Societies 2010 Annual Meeting

Scotiabank

Victoria

[International Congress and Convention Association \(ICCA\)](#)

The delegate evaluations were some of the most positive ever recorded, with great scores for organization, networking and educational content. Specific questions about Victoria also indicated that delegates really noticed and appreciated the genuine warmth of welcome they experienced in the city, as well as the top quality of service and catering they received in the conference centre. Bearing in mind these delegates came in from 65 countries from all regions of the world, this demonstrates clearly that Victoria is genuinely accessible for global meetings.

Martin Sirk

CEO

International Congress and Convention Association (ICCA)

Amsterdam, The Netherlands

Victoria

[TRIUMF](#)

We have hosted a few events in Victoria at the Victoria Conference Centre and the Fairmont Empress Hotel. The city is a beautiful venue and very attractive for our international delegates. It truly showcases the West Coast and shows off some of our Canadian history. The location of the Empress and VCC is perfect for conferences. We were able to hold a reception at the Royal BC Museum, which is across the street from the venue. The Museum is a huge draw for international visitors, and a fantastic and unique venue for a reception. The VCC itself is a wonderful facility to work in. Everything is laid out well, there is a lot of flexibility in the space, and the staff are fantastic. By the end of our conference, I felt I was leaving many new friends at these facilities.

Our events tend to be 95% international delegates. They loved the city and the venue, and found Victoria to be easily accessible, whether using the international airport, BC Ferries, or the ferries from Washington.

Sandi Miller

John Hancock Incentive Program

Whistler

I happened to be in Whistler, during the Olympics, on a clear blue sunny winter day in February. I rode the world's longest tram from mountain to mountain and enjoyed one of the most gorgeous views I've ever seen... a snowy 360degree vista overlooking mountain ranges, the charming village of Whistler below and thousands of flocked firs. It was quiet and beautiful...one of those moments you take a deep breath and give thanks for such special occasions to witness such natural unspoiled beauty. I spent quite a bit of time imagining the other four seasons of Whistler and pretty much concluded that I'd be happy visiting any time of the year. My rationale considered the hypothetical smell of fresh spring flowers while hiking in the mountains, the experience of golfing in Whistler while absorbing the beauty of the mountains all around in the summer, and then the blazing glory of autumn. The area is a gorgeous setting with a comfortable character. People are so laid back and friendly, yet deliver exceptional service in the restaurants, hotels, and shops. I loved the fact that dogs are loved by Whistler residents, and they are all happily behaved on their leashes. I'm convinced the smiling golden retrievers and Labradors all look at visitors and think "I'm lucky to live here."

[Tigh Na Mara resort](#)

I recently planned a corporate retreat at Tigh Na Mara resort and I could not have been happier with our experience! The accommodations were a perfect fit for what we were looking for. There were so many room options; something for everyone. My group stayed in the 1 and 2 bedroom cottages and they were great!

The meeting space was perfect for us too. It had windows and doors out to the patio so we didn't feel like we were trapped in a cave all day. I think the biggest, most pleasant surprise was how amazing the food and beverage was. It was better than most of the 4 and 5 star hotel chains that I book meetings with! From the buffet lunch and breakfast to the fancy plated dinners. Everything was exceptional. My sales contact Tauna and the banquet team even worked with me to do something extra special for my group and we ended up having an amazing clam bake on their patio. This isn't even one of their catering offerings but they did it just to make our visit extraordinary and of course, they nailed it!

From the preliminary planning stages to the onsite execution to the follow up communications, the staff was top notch at every turn. Every request was met with a smile and enthusiasm. Everything and anything no matter how big or small (or high maintenance) they made it happen without hesitation. The professionalism and passion for exceptional service at this resort blew me away. What a pleasure everyone was to work with. I would not hesitate to bring my company back there for a second. 5 out of 5 stars for sure! Can't wait to take my family now!!

Thank you to Tauna and the rest of the team for being amazing hosts. I look forward to my future visits!

[Canadian Museums Association 2006](#)

It was the New Brunswick flavor that made it special. I am going home with a suitcase full of local gifts and wonderful memories, and wanting to come back.

Lesia Davis

Canadian Museums Association 2006

Ottawa, ON

St. John's

The Royal LePage Real Estate National Sales Conference was held in St. John's, NL in September 2008 and it was the best conference we have had to date! It was our earliest sell-out on record as everyone wanted to visit Newfoundland. Delegate survey results rated it as the best networking experience as the city is large enough to have fun but intimate enough to find each other easily. By far, St. John's has the most welcoming residents. From a planner's perspective, it was the most enjoyable conference I have arranged as the local vendors went above and beyond to accommodate our needs and were always fun to work with.

Veronica Love-Alexander

National Manager, Events Marketing & Partnerships

St. John's

Having worked with several associations that have held their annual conferences in St. John's, Newfoundland and Labrador, I am delighted to attest to the overall success experienced by each. From the interest that the destination generated in advance of the conference – all three associations experienced an increase in registration - to the on-site experience and the warmth and friendliness of the hospitality staff, be it hotels, restaurants or attractions. All were captivated by the beauty and the majesty of nature – be it the Atlantic Ocean itself or the sight of an iceberg grounded in the mouth of the harbor. And the colors Newfoundlanders love seemed to release stress. Social events were more memorable than any destination I have experienced – how can you not love a kitchen party? - people still talk about the program, the experience and how great it was. The destination can be likened to a resort where once you set foot on the ground, the stress and strain disappears and you become enveloped in the life of living on a rock, far from the madding crowd. It is one of Canada's treasures – and the conference facilities, despite being very competitive, become secondary to the experience itself. I would highly recommend St. John's, Newfoundland and Labrador as a conference destination – it will not only generate interest, attendance and success for the destination but for the association and the conference itself!

Halifax

[Airports Council International – North America](#)

Halifax proved to be a great destination for groups of many sizes. The combination of location, hotel selection, offsite venues, culture, dining and entertainment is ideal.

Emily Brown

Airports Council International – North America

Washington, DC
Halifax

Halifax has it all – its easy to get around, it has the ocean, great attractions, restaurants, bars, shopping and very friendly people.

Janice MacAulay
Halifax

New York State Land Title Association has come and gone and was a huge success. We travel with this group to Canada, the United States and Bermuda and therefore, work with several Convention Organizations. However, Destination Halifax wins the top award for professionalism, service, follow up and overall partnership. Halifax was a new destination for over 90% of the attendees and marketing was paramount to the success of the conference. The follow up marketing campaign, pre event promotional mail out materials and web site features were excellent. The constant follow up and communication was also first class. It was a pleasure working with you and I hope that we will have a chance to bring many other groups to Halifax.

Roni Feldman CMP DMCP
President
Halifax

There is such enthusiasm and passion – a ‘can-do’ attitude in Halifax. There is also a tremendous amount of knowledge and pride in local product. Having planned more than 100 national meeting and conventions over the past 20 years as an event planner, on a scale of one to ten, the Halifax team is easily 15.

Rita Plaskett CMP, CMM
President

[The Hanover Insurance Group](#)

In the insurance business, we always talk about 'delivering on a promise,' whether it be insuring lives, insuring property or financial security. It's the business that we are all in. I recall attending an ICPA (that's what it was at the time) Board of Directors meeting in Toronto either

in 2004 or 2005. At that time, we met with Murray from Toronto Tourism as well as many of the Toronto stakeholders regarding their bid for our annual meeting. I recall being struck by the passion and sincerity as well as by the fact that it wasn't about one hotel versus another but by the combined desire of everyone to showcase your great city. It could have been the plane that flew by the 43rd floor boardroom with a banner that read something like 'Toronto Welcomes ICPA in 2008' that really was the icing on the cake for me. When John Touchette spoke to me about his decision to select Cancun (Cancun and Toronto were bidding on the 2008 conference), I told him that I would be very comfortable selecting Toronto. I wish I could take credit for the foresight in holding our meeting in a city like Toronto for the 2009 conference. We all know it's been a very difficult year for our members and partners. A meeting in a resort destination this year could really have been disastrous. Let me tell you, Toronto, Toronto Tourism, CTC, Starwood, Sheraton Centre, JPdl, Fairmont Royal York, FICP staff and all of the other stakeholders knocked this one out of the park and truly "delivered on a promise." I was proud to boast that Toronto was my selection. You should all be very proud of what was accomplished.
